

TUNEPAL – USABILITY TEST TASK SHEET

The following tasks are designed to assess how easily users can navigate and interact with the TunePal app. Please read each task carefully, perform the action as naturally as possible, and think aloud during the process.

Task 1: Search for a Tune

Instruction:

Use the search bar to find the tune 'Cooley's Reel' and play it.

Goal:

Evaluate the ease and speed of searching and playing a tune.

Success Criteria:

User locates and plays the correct tune without needing help.

Notes:

Task 2: Use the Microphone to Identify a Tune

Instruction:

Use the microphone feature to identify a tune being played nearby or from a speaker.

Goal:

Assess the app's ability to correctly recognize tunes via the mic.

Success Criteria:

App successfully identifies and displays the tune name.

Notes:

Task 3: Save a Tune to Favourites

Instruction:

Save a tune of your choice to your Favourites or My Tunes section.

Goal:

Test how easily users can bookmark content.

Success Criteria:

Tune appears in the saved tunes section.

Notes:

Task 4: Export Sheet Music as PDF

Instruction:

Open any tune and export or download its sheet music as a PDF.

Goal:

Verify the discoverability and functionality of the PDF export feature.

Success Criteria:

PDF is successfully saved or shared from the app.

Notes:

Task 5: Find and Join a Group or Party Feature

Instruction:

Locate and attempt to join a group, party, or community section in the app.

Goal:

Assess the user's understanding of app terminology and navigation for social features.

Success Criteria:

User accesses and joins or explores the group feature with minimal confusion.

Notes:
